# ASTRONOMY AND ASTROPHYSICS

Two 3 - CREDIT COURSES

SEPT 1980 - APRIL 1981

Thursdays, 16:05 - 17:55

PHYSICS DEPARTMENT CONCORDIA UNIVERSITY

### PHYS C324/2

Selected Topics in Physics

Subject: Introduction to Astronomy

Prerequisite:

PHYS C205, MATH C205 or equivalent [CEGEP Physics, Math]

Sec. AA Th 16:05 - 17:55 SGW September 1980

### **CONTENTS:**

The Celestial Sphere
The Solar System
Celestial Mechanics
Basic Stellar Characteristics
The Galaxy -

Structure and Content Extragalactic Objects

Complementary activities:
One Planetarium Visit
Visit to the Quebec
Astronomical Observatory

### **INSTRUCTOR:**

GILLES MENARD F. I. C.
DEPARTMENT OF PHYSICS
UNIVERSITY OF MONTREAL

Selected Topics in Physics

Subject: Astrophysics

Prerequisite:

PHYS C324/2, Introduction to Astronomy.

Sec. AA Th 16:05 - 17:55 SGW January 1981

## **CONTENTS:**

The Stars
Stellar atmospheres
Stellar motions
Stellar interiors
Stellar populations
Variable stars
Nebulae
Radio, XR, IR sources
The Galaxy Population and dynamics
The extragalactic universe

# **INSTRUCTOR:**

GILLES MENARD F. I. C.
DEPARTMENT OF PHYSICS
UNIVERSITY OF MONTREAL
